

Godmanchester in Bloom 2020 A Year for all of the Community

Godmanchester in Bloom is about Community and enhancing our Town and the surrounding countryside for the benefit of both residents and visitors. We work with and involve the schools, nurseries, uniformed groups and residents to make a greener, more environmentally friendly place to live in and to enjoy.

We raise money by applying for grants, fund raising and sponsorship. Projects include street planters, tree planting, orchards, Open Gardens and the Garden Club, and fun community activities like the Scarecrows. Local groups and individuals provide flowers for the War Memorial from Easter to Armistice Day. During 2019, and into 2020, we will continue to care for and improve the Critical Care Centre Garden at Hinchingsbrooke Hospital. We are also involved in the introduction of the bird hides and Sand Martin boxes at the Country Park.

We intend to continue with and widen The Greener Streets Project, asking people with little or no front garden to put out containers and baskets, and for the community to carry out litter picks and support a greener way of life as a community...a great initiative to be involved in - whether individually or your entire street !

2020 will see the return of both Scarecrows and Open Gardens in the bi-annual festival, the continued planting of trees, including a group in the grounds of the Comrades Club, many more plants and bulbs, and continued In Bloom support for the Town Show, which this year was again very successful with hundreds of entries.!

You may not appreciate what Godmanchester in Bloom does for our local community, *but* they do it all year round, in all kinds of weather and in doing so provide a greener, brighter, nature-friendly and less polluted environment.

2020 will be a very busy year, and we would be more than happy to welcome new helpers. If you feel you would like to get involved and Make a Difference or if you would just like more information about us, please see our web site:
