

GREENER STREETS IN GODMANCHESTER

GREENER STREETS: BETTER LIVES is a Royal Horticultural Society campaign to transform our communities into pleasant green places.

GODMANCHESTER IN BLOOM is grateful to everyone who already puts out pots, baskets etc. to enhance this great Town of ours.

Anyone can get involved, whether you have a tiny windowsill to transform with a pot or window box or scope for a bigger project, such as incorporating planting into a paved front garden used for parking.

Keeping the pavement in front of your house clear of weeds, grass and litter will also be a valuable contribution.
